3DS Recovery

If you have received this link, your 3DS, along with its inserted SD Card, have been locked. Any and all files that were stored can no longer be accessed.

However, you will still be able to unlock this system, along with your SD Card. But this will have to be done through a payment of:

$150 USD

Your payment is due within 14 days.

A file should have been generated on the root of your SD Card. The filename should have 25 characters. This is your user ID.

Write this down on something such as a notepad.

Turn your 3DS back on, then enter your user ID and card number. We accept VISA, MasterCard and American Express. If you do not have any of those, you might not be able to unlock your 3DS.

You will receive an unlock key momentarily. If you do not receive this key within 5 minutes, please call one of the following numbers:

IMPORTANT: Unlock keys expire after 1 hour. Use your key quickly, otherwise it will not work.

3DS Recovery

If you do not pay within the first week, the price will be doubled. If your 3DS is still locked after 14 days, your files will be rendered unrecoverable, and your system may be permanently bricked.

We recommend paying as soon as possible to prevent any further issues.
